Professional Summary

Data Science graduate pursuing an M.Sc. in Artificial Intelligence with a strong foundation in Python, machine learning, statistics, data analysis, and database systems. Hands-on experience developing AI-powered and data-driven applications involving personalized learning, user activity tracking, and structured data management. Currently gaining professional experience through a six-month Digital Marketing internship at HodoLabs Technologies, with additional training in Web Development and Software Engineering. Seeking entry-level AI/ML, Machine Learning, or Data Science opportunities.

Education

St. Joseph's College (Autonomous), Tiruchirappalli	2025 – Present
M.Sc. Artificial Intelligence	
Thiagarajar College, Madurai	2022 – 2025
B.Sc. Data Science	65.06%

Experience

HodoLabs Technologies Private Limited	Jun 2026 – Present
<i>Digital Marketing Intern</i>	

- Work on website SEO and digital marketing workflows involving website analysis, keyword research, structured data organization, and reporting.
- Analyze website audit findings and maintain structured Google Sheets workflows for tracking SEO issues, actions, priorities, and website changes.
- Organize search and website-related data to support reporting and communication with development and marketing teams.

HodoLabs Technologies Private Limited	May 2026 – Jun 2026
<i>Web Development & Software Engineering Trainee</i>	

- Completed a one-month online training program covering frontend/backend development, software engineering practices, version control, and project implementation.
- Applied software engineering concepts through practical exercises and project-based assignments.

AI / ML Projects

PrepMind AI AI-Powered Learning Platform	Live Demo	GitHub
---	-----------	--------

- Developed an AI-powered learning platform with quiz management, progress tracking, and personalized learning workflows.
- Designed structured Supabase data models for user profiles, learning activity, quiz performance, and progress tracking.
- Integrated frontend, backend, authentication, and database components to support personalized learning and structured data management.
- Built data-driven workflows for monitoring learner activity and progress.
- *Technologies: Python, Supabase, Firebase, Vercel*

Daily Spark Productivity Tracking Application	GitHub
--	--------

- Built a Python-based productivity application for tracking habits, streaks, and task completion over time.
- Implemented structured local data storage, backup, and export workflows for historical activity records.
- *Technologies: Python, Local Storage*

Technical Skills

Programming: Python, SQL
AI & Machine Learning: Machine Learning, Artificial Intelligence, Statistics, Data Analysis, Data Cleaning
Data & Visualization: Excel, Google Sheets, Charts, Reporting
Databases: Supabase, Firebase, MongoDB
Development & Tools: GitHub, GitHub Actions, Google Colab, VS Code, Vercel, Render

Certifications

Introduction to Machine Learning (Tamil) NPTEL, IIT Madras	2026
IBM Data Analyst Professional Certificate Coursera	2025
Yuva AI for All (Tamil) Skill India	2025
Honors Diploma in Information Technology (HDIT) HDIT	2024

Achievements

- **1st Place Winner** – Technical Quiz Event, BOOTFEST-2K26.
- **Runner-up** – Capture The Flag (CTF) Cybersecurity Challenge, BOOTFEST-2K26.
- **1st Place Winner** – Inter-Departmental Technical Competition, Achievers' Day.
- **Lead Organizer** – Led the “Treasure Titans” event at AION 2K26 Technical Symposium.
